

Quality Policy

It is the policy of the Board of Directors and of the Management of **BAM Contractors** to complete every project in accordance with the Clients' specified requirements.

In order to achieve this aim, an effective Quality Management System has been implemented which complies with the requirements of the International Standard ISO 9001:2015. This Quality Management System comprises a set of formal operating procedures set out in both Contractors Quality Manual.

External verification of the Company's system ensures a process of constant evaluation and improvement. This benefits both the Client and the Company, enhancing our excellent reputation within the construction industry.

Continual improvement of the system ensures it meets current and known future requirements.

Quality objectives based on the Quality Policy and the subsidiary Quality Policies are established to assist in continually improving the effectiveness of the Quality Management System.

The Directors and Management of the Company are committed to the Quality System and hereby notify all employees and sub-contractors that they are instructed to adhere at all times to the Requirements of the Company Quality Management System and constantly to maintain and improve quality. Each Director ensures all employees and sub-contractors on their projects know and understand this Company Quality Policy.

Adherence to the Quality Management System operating procedures ensures conformance with the Clients specified requirements and legal and regulatory requirements.

T. Cullinane, CEO
